

PRESS RELEASE | For immediate release

## LA MAISON DE PÉRINATALITÉ : NEW SERVICES IN THE HEART OF GASPÉ !

**Gaspé, January 6th, 2022** - The population of the Gaspé area can now take advantage of our new services for expectant woman and their families. The Maison de périnatalité team is proud to be able to offer interdisciplinary pregnancy follow-ups, starting immediately. In collaboration with Gaspé's CISSS, our great team of professionals is composed of 3 doctors, a psycho-social worker, a specialized nurse practitioner, birth attendants and a navigator.

Thanks to the efforts of the Maison de la famille team and the Maison de périnatalité project manager, a room has been equipped to offer prenatal consultations. These pregnancy follow-up meetings will have a personalized approach that promotes empowerment, natural delivery, informed choice and consent. Also, by working in an interdisciplinary manner, the team aims to maximize the complementarity of care by touching on various aspects of overall health.

In addition, the Maison de la famille Parenfant is already recognized as a dynamic environment offering several perinatal and family resources under the same roof: a drop-in daycare, a thrift store, respite care services, childbirth preparation workshops, etc. The new services

are in line with the same philosophy of inclusion and accessibility. Finally, a large community of partners from the community and the health network is being created around the Maison de périnatalité in order to create a support network for families expecting a baby. An inauguration will be held soon to celebrate the new Maison de périnatalité together!

If you are pregnant and interested in our services, please contact us by phone at (418) 368-6028 ext. 1 or by email at [grossesse@parenfant.com](mailto:grossesse@parenfant.com)

About the Maison de la famille Parenfant de Gaspé, this organization, which is located in downtown Gaspé, was founded in 1996 and offers services to all families living on the territory between Anse-à-Valleau and Coin-du-Banc.
